PROJECTS

Amazon Website UI Clone 🔗
A responsive static clone of the Amazon homepage replicating core UI components and layout. Built with React & Tailwind CSS, featuring 15+ reusable components, 100% responsive design, and REST-based product data rendering.

Currency Convertor 🔗
A real-time currency converter that displays exchange rates for multiple global currencies. Developed using React with API integration, supporting 150+ currencies and delivering conversions in under 1 second.

Todo list 🔗
A task management app allowing users to create, store, and organize tasks with deadlines. Built with React, supporting CRUD operations, local data persistence, and managing unlimited user tasks efficiently.

Coffee Website 🔗
Built and optimized a responsive cafe website using React + Vite, achieving 90+ Lighthouse performance score, 1.6s LCP, and 0 CLS through image optimization and code splitting.
